Dear colleagues!

We invite you to participate in the XII International Scientific and Practical Conference  
**"Prospects for the development of the construction complex: education, science, business"**  
October 10-11, 2018.

Astrakhan State University of Architecture and Civil Engineering "October 10-11, 2018, conducts the XII International Scientific and Practical Conference of the faculty, young scientists and students **"Prospects for the development of the construction complex: education, science, business."**

**Co-organizers:**

- Tashkent University of Information Technologies named after Muhammad al-Khorazmiy (Uzbekistan);
- Karaganda Economic University of Kazpotrebsoyuz (Kazakhstan);
- University of Nada (Egypt).

The aim of the conference is to unite the efforts of the state, the scientific community, commercial organizations and public organizations in solving the problems of increasing the efficiency and competitiveness of the Russian construction industry. During the conference priority directions of technological, normative, technical, financial, investment policy in the construction complex and housing and communal services are discussed. Within the framework of the conference, master classes, round tables, open lectures will be organized.

Languages of the conference: English and Russian

**Subjects of scientific sections of the conference:**

**Section 1.** "Formation and development of a biosphere-compatible architectural and town-planning environment"

**Section 2.** "Energy-Resource-Saving Technologies, Rational Use of Natural Resources, Provision of Technospheric Security"

**Section 3.** "Improving operational reliability while improving the design, construction and reconstruction of buildings and structures"

**Section 4.** "Social and humanitarian aspects of the formation of the living environment"

**Section 5.** "Economic sustainability and security"

**Section 6.** "Prospects for the Development of Rural Territories and Agricultural Production"

**Section 7.** "Information technologies and engineering of smart systems in construction"

**Section 8.** "Russian-Egyptian dialogue:" Higher education for the development of sustainable relations "
