INTRODUCTORY REMARKS BY THE EDITOR-IN-CHIEF7	<i>A. A. Karamysheva, M. A. Kolotienko, A. D. Tyutina</i> Rationalization of coating solutions for large-span civil aviation ground infrastructure. Part 1. Airports46
CONSTRUCTION AND ARCHITECTURE	
<i>E. M. Derbasova, E. M. Bialetskaya, R. V. Mukanov</i> Methodology for estimating operation parameters of a hydraulic friction wind generator based on a frame model8	<i>R. V. Khrestenko, V. N. Azarov</i> Accounting of evaporation from leaks of oil products in the urban environment50
<i>N. V. Kondakova, A. A. Mozgunova, Yu. A. Gavrilina, N. S. Serpokrylov</i> Assessment of the working area air condition and odors in indoor treatment facilities 13	<i>S. S. Grishin</i> Assessment of energy and environmental potential of wave self-oscillating wind turbine54
<i>O. B. Zavyalova</i> Calculation of pipelines on a flyovers on transverse seismic loads by simplified calculation schemes 16	<i>T. O. Tsitman, K. A. Proshunina</i> Concept of forming a model of architectural-ecological space59
<i>I. S. Prosvirina, D. P. Maksimova</i> Methods of intensification of solar energy heat with soil 21	<i>N. P. Prikazchikova, A. S. Voloshina</i> Artistic methods in creating light environment in the interiors of the soviet period of the 50–80s of the XX century67
<i>Ye. V. Davydova, A. N. Kim, L. A. Dzhigola, A. M. Kapizova</i> Some aspects of natural sorbent research based on southern common cane in the practice of purifying aqueous media from complex hydrocarbons 25	<i>A. G. Zima</i> "Green" architecture as a modern relevant architectural direction74
<i>A. D. Smirnov, L. V. Boronina, M. A. Odnoletnikov, A. A. Sverdlikov</i> Addition to the question about education and removal of anti-sorrowing substances from ventilation emissions of sewerage systems 29	<i>I. A. Egorova, R. S. Zhukovsky</i> The principles of architectural and urban development for 1950–1970s residential districts in large siberian cities79
<i>K. G. Kondrashin, S. P. Strelkov, V. N. Pilipenko, Yu. A. Lezhinina, N. A. Mironov, D. Oyuntsetseg</i> Integrated assessment of ecological risk in the formation of artificial islands and engineering and construction surveys in the territory of an artificially created island 33	<i>N. V. Kupchikova</i> Examination of geo-foundation, bases and foundations of fine laying: regional features of analysis and estimation of deformations during operation85
<i>L. V. Boronina, G. B. Abuova</i> Ecological evaluation of efficiency of cleaning of water waste water on biological constructions in natural conditions 38	<i>V. S. Fedorov, V. E. Levitskiy</i> Nonlinear concrete deformation under conditions of mode loading at short-time unsteady heating89
<i>V. V. Latuta, D. A. Zhivotov</i> Researching of the water resistant of the foundation for low-rise building made using the vibration method 42	<i>N. V. Kupchikova</i> Formation of end expansions of drilling piles with account of experimental analytical and numerical research methods93
	<i>V. S. Svinarev, E. V. Shulzhenko, E. S. Gorbunova</i> Improving the quality of ash and slag components used in the concrete mix98
	<i>Saiyd Maram Ali, N. S. Serpokrylov</i> Waste water treatment applicable to the conditions of Syria 100
