## CONSTRUCTION AND ARCHITECTURE

<p><i>T. V. Zolina, V. D. Bashmachnikov</i> Strengthening structures with carbon fiber using concrete using barrier technology, problems of strengthening metal structures with composite materials, determining the spatial position and shapes of towers.....7</p>	<p><i>A. S. Kudasova, A. D. Tyutina, M. A. Kolotienko</i> Constructive and architectural aspects of solutions for translucent roof of airports..... 54</p>
<p><i>N. A. Strakhova, B. B. Utegenov, N. A. Belova, L. P. Kortovenko</i> Technology of production of composite material for construction structures .....12</p>	<p><i>N. I. Yermolin</i> Open-air ethnographic museum..... 58</p>
<p><i>T. V. Zolina, V. D. Bashmachnikov</i> Main problems of determining spatial forms of towers under constrained conditions and method of aligning structures with following them.....16</p>	<p><i>N. A. Makisha, M. S. Kiryushina</i> Research of optimal working pressure for membrane bioreactors in condition of various values of mixed liquor suspended solids concentrations..... 63</p>
<p><i>E. M. Derbasova, E. M. Bialetskaya, M. V. Verein, R. M. Duafi</i> Research of temperature conditions of accelerated hardening of monolithic structures built under negative temperature conditions.....21</p>	<p><i>Yu. V. Osipov, M. D. Astakhov</i> Calculation of filtration of bidispersed suspension in a porous medium ..... 69</p>
<p><i>N. P. Prikazchikova, A. S. Voloshina</i> The role of decorative -applied art in the residential interior of the Soviet period of the 50-80s of the XX century .....28</p>	<p><i>E. E. Semenova, V. S. Dumanova</i> The increase of energy efficiency operated buildings..... 72</p>
<p><i>M. V. Khramova</i> Creating a unity of image of sculptural composition .....32</p>	<p><i>A. E. Stepanov, A. B. Malygin</i> Optimization of monolithic works in the construction of residential buildings ..... 76</p>
<p><i>N. S. Dolotkazina, Yu. G. Kozhevnikova</i> Features of urban area renovation taking into account existing restrictions .....36</p>	<p><i>A. E. Usynina<sup>1</sup>, A. S. Svyatsky<sup>2</sup>, S. G. Boyarko<sup>3</sup></i> Organization of an industrial safety system at a gas processing plant in the Astrakhan region ..... 78</p>
<p><i>A. G. Zima</i> Environmental friendliness of structural building materials.....40</p>	<p><i>E. D. Khetsuriani, V. L. Bondarenko, A. I. Ilyasov, F. S. Nozimov, T. E. Khetsuriani</i> Soft surfaced construction of a water intake structure as part of a water intake technological complex of multi-purpose water supply systems for urban households and economic objects ..... 82</p>
<p><i>D. R. Alaeva, A. A. Semenov, V. V. Karpov</i> Method of investigation of subcritical and transcritical deformation of shells at hinge-movable fixing of the contour .....49</p>	<p><i>M. N. Chekardovskij, K. P. Guseva, S. J. Lebedev</i> Heat-insulating perlite plasters ..... 88</p>
	<p><i>Ulziisaikhan Ganbold, Oyuntsetseg Dash</i> Data integration in large-scale topographic mapping ..... 91</p>
	<p><i>Yu. V. Mamaev, V. A. Abushova</i> Issues of accommodation of agricultural production in the city environment ..... 95</p>

**COMPUTER SCIENCE,  
COMPUTER ENGINEERING  
AND MANAGEMENT**

*V. M. Zaripova, V. O. Kvasova, I. Yu. Petrova*  
Deregulated electricity market –  
new requirements  
for digitizing business processes .....98

*I. I. Potapova, Ye. S. Samoylova*  
Economic sustainability of the organization .....104

*Yu. G. Zheglova*  
Automated system for evaluating design decisions  
when choosing foundation pit fences  
based on the theory of active systems.....106

*I. Y. Zilberov, E. A. Tomashuk, V. A. Babkina*  
Principles of forming an organizational  
and technological management system  
for the implementation of target programs .....109

**SAFETY OF HUMAN ACTIVITIES**

*A. G. Gorbunova, A.M. Kapizova, A. E. Usynina*  
Organization of an industrial safety system  
at a gas processing plant  
in the Astrakhan region ..... 113

*Yu. A. Kurbatova, A. P. Parfyonenko*  
Problems of people’s evacuation modeling ..... 116

*I. V. Starokon*  
Application of thermal control methods  
for assessing the danger of the danger  
of corrosion defects  
of marine stationary platforms ..... 120

**REVIEWS ..... 124**
