CONSTRUCTION AND ARCHITECTURE

V. A. Orlov, S. P. Zotkin
Modeling parameters of water-air mode of gravity sewer networks operation under reconstruction5

A. V. Leshchenko, A. V. Fedoryan, O. V. Sorokina, E. V. Komlev
Methodological bases for improving the technology of water resources use in irrigation and irrigation systems.....9

O. V. Ledyaykina, A. I. Rodin, D. Yu. Vlasov
Species composition of microorganisms identified by samples of cement composites exposed under conditions uv exposure and cycling existing temperature and humidity factors..... 16

M. O. Korovkin, N. A. Eroshkina, S. M. Sadenko, K. A. Krainova
Study of effect of fiber dosage and duration of mixing on properties of fine-grained concrete..... 22

O. B. Zavyalova
Calculation of a multi-storey step pylon taking into account hardening and creeping of early concrete 26

Y. N. Stukalina, L. V. Boronina, E. V. Davydova, E. K. Murzaeva, I. V. Lukicheva
Removal of poisonous substances by the example of gas cleaning plants 31

A. P. Kozhanov, N. P. Prikazchikova
Graffiti: "art or vandalism?" 34

A. G. Zima
Window characteristics that affect the increase of its thermal insulation properties..... 40

D. O. Ignatkina, A. V. Moskvicheva, A. A. Voytyuk, V. I. Saleeva
Mathematical analysis of experimental regularities of the process of sorption aftertreatment of wastewater using granulated composite sorbent..... 47

A. P. Pichugin, V. F. Hritankov, A. V. Pchelnykov, A. A. Shatalov, O. E. Smirnova Yu. V. Mamaeva
Thermomechanical studies of protective impregnating compositions with nanoscale and special additives..... 53

N. V. Kupchikova, R. I. Shajahmedov
Innovative consulting techniques when developing the construction method injection piles 58

N. V. Kupchikova
Expertise of geoscope, bases and foundations of deep location: regional features of accounting and assessment of deformations during operation63

COMPUTER SCIENCE, COMPUTER ENGINEERING AND MANAGEMENT

O. B. Urumbaeva, T. A. Shalaev, O. M. Shikulskaya
Intelligent power network concept.....69

E. A. Zhidko, A. B. Vlasov
Adaptive management of information resource in the communication system of critical important object74

O. I. Evdoshenko, A. O. Litvinova, I. V. Aksyutina
Development of software of information system for calculation of workplace parameters.....79

D. S. Apryshkin, G. Sh. Khazanovich
Method and algorithm of simulation simulation of passenger elevator operation modes.....84

S. Yu. Kalashnikov, Yu. S. Kalashnikova, E. V. Shilova, A. S. Golovanova
Particularities of the quantitative assessment of the consumer properties of real estate in the secondary housing market.....92

V. Yu. Kuznetsova, I. V. Azhmukhamedov
Classification of borrowers of microfinance organizations on the basis of building an extended digital profile and a precedent approach.....98

SAFETY OF HUMAN ACTIVITIES

I. V. Starokon
The practice of using thermal diagnostics methods to assess local overvoltage of elements of fixed offshore platforms with corrosion defects 104
