

Table of Contents

CONSTRUCTION AND ARCHITECTURE

M.A. Gavrilov

Features of designing tourist centers on the example of China..... 7

E.I. Huseynli

Comprehensive remote-contact method of qualitative diagnostics of the emergency state of water pipelines13

E.V. Davydova, A.N. Kim, D.A. Nedelko

Modern achievements in modeling and implementation of collection systems rain water for sustainable development16

E.M. Bialetskaya, E.M. Derbasova

Optimization of the operation of a thermal power plant based on the data obtained from the automated system of commercial electricity measurement (ASCEM)18

T.V. Efremova, T.D. Kourova

Optimization of the low-pressure gas distribution network population of Verkhnyaya Lipovka village, Kamyshinsky district, volgograd region24

D.O. Ignatkina, A.A. Voytyuk,

A.A. Gerashchenko, V.I. Saleeva
Experimental evaluation of the efficiency of adsorption of multicomponent pollutants using organobentonite sorbent28

S.Yu. Kalashnikov, E.V. Gurova, S.A. Kalinovskiy

Taking into account the shape of the cross section of the bent beam in the incremental condition of plasticity33

N.A. Strahova, B.B. Utegenov, B.N. Tulepbergenov,

N.A. Belova, A.M. Kokarev, L.P. Kortovenko
Modified composite materials for road construction37

A.S. Kudasova, M.A. Kolotienko, A.D. Tyutina

Arched supporting structure of the hanging roof of widespan stadiums: structural and architectural features.....43

R.I. Shajahmedov, E.E. Kupchikov

Solar energy in local systems energy supply and demand reduction in electric batteries.....47

V.K. Menshikova, L.N. Demina

Influence of non-plastic raw materials of Siberian natural deposits on the physical and mechanical characteristics of facing ceramics.....52

I.S. Prosvirina, E.M. Derbasova

Influence of wind speed on the nature of pressure distribution outside multi-storey buildings.....57

M.G. Samsonova, E.E. Semenova

Comparison of additional heat loss of window openings in enclosing structures of volumetric blocks and aerated concrete in various climatic conditions 60

V.I. Shcherbakov, N.V. Kuznetsova,

T.V. Shchukina, R.S. Shevchenko
Biogenic pollution of water bodies and the possibility of eliminating the consequences..... 66

V.S. Fedorov, A.A. Korshunov

Est results for fire resistance of external reinforced concrete panels made of heavy concrete..... 70

N.V. Kupchikova, E.V. Gurova

Examination of the geo-base and pile foundations of construction-in-progress objects..... 73

N.P. Pinskaya, I.D. Stolbova, A.M. Tijani

Engineering concepts for the construction of a railway terminal in Ghana 78

E.D. Khetsuriani

Development of a computer hydrodynamic model of the flow in the bucket intake in Beloyarsky..... 84

V.A. Orlov, E.A. Koroleva, O.V. Miller

Formation and neutralization of odor in water discharge networks as in the most important arteries of life support 89

E.D. Khetsuriani

Mathematical modeling for searching optimal solutions (on the example of Aleksandrovsk water intake on the river of Don) 92

E.D. Khetsuriani, M.Yu. Kosichenko

Software computer hydrodynamic flow model flow in the transit channel of the bucket intake 98

S.V. Murashev, A.N. Kim

Improving the method of disinfection of residential sewage of ships, by the electrical retention of impurities on a granular material103

COMPUTER SCIENCE, COMPUTER ENGINEERING AND MANAGEMENT

S. Abbasipayam, N.V. Mokrova

Using perseptron neural network to determine the parameters of the industrial system 106

I.V. Aksyutina, V.M. Zaripova, I.Yu. Petrova

Model of control of introduction and distribution of competencies in disciplines of the university curriculum..... 111

<i>V.M. Zaripova, I.Yu. Petrova, I.V. Aksyutina, Yu. Lezhnina</i> Model of a digital platform for supporting interaction of regional enterprises and the university.....	117	<i>D.A. Lysenko</i> The method of automated adaptation of the digital twin of the construction object	139
<i>D.V. Bluvshstein</i> As for development of models of self-study programs within human-computer interaction.....	121	<i>E.R. Galyaev</i> Synthesis of the digital robust control algorithm with application to the problem of quadcopter stabilization	142
<i>V. Gladkikh</i> Methods of defining the constrained labour conditions coefficient for major construction projects	126	SAFETY OF HUMAN ACTIVITIES <i>A.O. Alekseev, T.V. Adyeva</i> Construction organizations risk category determination	145
<i>M.G. Kostikov, V.V. Mironov</i> Principles of implementation of calculation cost of communal services with using collective metering devices in an automated system.....	133	REVIEWS	152
		SCIENTIFIC LIFE	154
		OUR AUTHOR	155
		INFORMATION FOR AUTHORS	157
