

Table of Contents

CONSTRUCTION AND ARCHITECTURE

V. S. Fedorov, V. E. Levitsky, V. E. Matvienko
Method for constructing temperature profiles for calculating the fire resistance of reinforced concrete structures by the method of a normalized curve5

N. L. Tishkov, A. N. Stepanenko, A. V. Belov, A. A. Iodchik
A valid (absolute) lengthening stretched bolt8

N. V. Kupchikova
New structural and technological solutions for foundations of submerged underwater tunnels 12

A. N. Goikalov, V. I. Shcherbakov
Study of the technical condition of historical buildings and analysis of the preservation of stone masonry of bearing structures..... 15

N. V. Kupchikova, A. N. Sychkov
Results of numerical analysis of the “building – pile foundation – ground foundation system” using the “MIDAS GTS NX” 19

V. A. Isanova, I. V. Popova
Ensuring the required characteristics of the internal microclimate in the design of a block of multi-storey residential buildings, taking into account its aeration regime 25

S. V. Prokin, I. R. Bukhminov, V. Ya. Svintsov, Yu. A. Alyautdinova
Researching the processes of dispersion and combustion of liquid fuels in a high-voltage electrostatic field..... 30

Yu. I. Tilinin, D. A. Zhiotov, V. Yu. Tilinin
Improving the processability of installation of frame-panel prefabricated buildings 34

V. S. Fedorov, V. E. Levitsky, V. E. Matvienko
Features of resistance of reinforced concrete beams to fire in conditions of limiting the rigidity of axial and rotational support anchorages 38

O. N. Paramonova, K. S. Shtenske
Investigation of asbestos properties parameters in a lump form as waste generated in foundry..... 42

D. A. Repa
Some aspects of the study of architectural and town-planning features of medieval castles in east Prussia46

A. I. Chashchina, A. V. Skopintsev
Methods of architectural and planning adaptation of the environment of perinatal centers to the conditions of social distancing51

E. N. Lebedeva
The concept of transformation of the residential environment of the "Gray Belt" of St. Petersburg in view of the pandemic 57

COMPUTER SCIENCE, COMPUTER ENGINEERING AND MANAGEMENT

E. M. Evsina, M. I. Shikulsky
Intellectualization of the decision support system for the selection of methods and means of air purification of industrial enterprises66

I. Yu. Petrova, O. O. Mostovoy
Review of the buildings survey process. Problems and ways of solution69

P. N. Sadchikov, O. I. Evdoshenko, N. P. Sadchikov
Automation of calculation of optimal volume of polypropylene fibre in fibrobeton of slab with holes.....75

V. V. Soboleva, M. I. Shikulsky
Methodology of selection of educational technologies for optimization of educational process in construction university81

T. V. Khomenko, K. D. Yaksubaev
Parametric spline constructed based on the Ispline operator of the MATHCAD package.....86

CONGRATULATIONS.....89

REVIEWS 90

SCIENTIFIC LIFE.....92
