

Table of Contents

CONSTRUCTION AND ARCHITECTURE

V. F. Mushchanov, A. N. Orzhehovskiy
Analysis of the degree of responsibility of the elements to determine the characteristics of reliability and the inclination to an avalanche destruction of rod structures5

D. A. Tarasov
Numerical estimation of limit loads for flexible files in the elastoplastic state..... 10

A. V. Isanova, Ye. D. Kretova, D. A. Drapalyuk, N. A. Drapalyuk
Analysis of the use of modern thermal insulation based on aerogel in the design energy-efficient buildings 15

S. A. Loginova, A. A. Timoshin
Assessment of the prospects for the use of heat pump heat supply systems for residential buildings..... 22

Rahal Zakaria, Chekima Hamza, A. S. Smolyanichenko, N. S. Serpokrylov
Application of date-palm kernels as a potential adsorbent for groundwater treatment 26

O. V. Melnik, V. A. Orlov
Studies of the microbiological composition of wastewater and gas environment in the air space of gravity pipelines..... 29

L. N. Lisiyenkova, L. S. Nosova, I. G. Rekus
Risk assessment in the design of concrete mixtures..... 34

N. V. Ledyaykin, O. V. Ledyaykina, M. M. Zotkina
Investigation of the species composition of microorganisms identified from the surface of plaster samples exposed in conditions of high humidity and constant temperature..... 39

E. B. Пономарева, O. A. Хохлова, К. В. Кулемина, А. В. Синельщиков
Развитие теоретических и методологических подходов при изучении теоретической механики студентами строительных специальностей..... 46

O. A. Sotnikova, T. S. Khaleyeva, Ye. A. Salasin
Urban conversion of the Arctic zone of the Russian Federation: new approaches and solutions 54

A. S. Resnyanskaya
Project management of a high-rise building with fire safety requirements included 62

N. V. Kupchikova, T. V. Zolina, K. Ye. Dzhantazayeva, Ye. Ye. Kupchikov
Digitalization of processes in the construction stage in the implementation of the investment and construction project multifunctional residential complex 71

P. A. Zhuravlev, A. M. Marukyan
Features of the organization and accounting of temporary construction infrastructure (part 2) 80

COMPUTER SCIENCE, COMPUTER ENGINEERING AND MANAGEMENT

A. D. Vilisova
Management improvement in the interaction system of investment and construction projects participants based on cloud technologies 85

G. F. Zinnurova, N. N. Salova
Development of an educational resource in the form of an interactive panel with a computational model of the financial condition assessment process 89

S. I. Noskov, N. I. Glukhov, T. K. Kirillova, Ye. S. Popov
Mathematical model of the dynamics of road construction in the Russian Federation 95

B. Kh. Sanzhapov, R. B. Sanzhapov, K. V. Katerinin
Early decision support options for implementing a complex system project..... 99

Nan Feng, Z. A. Agalarov, O. M. Shikulskaya
Modeling of pipeline systems organization and repair processes..... 104

M. I. Shikulskiy, O. V. Medvedeva, V. M. Barkova, L. A. Pleshakova
Application of etl processes for automation of retail sales data analysis 108

I. N. Temirbulatova, L. A. Pleshakova, A. V. Zhirnova, M. I. Shikulskiy
Mathematical model of engineering support project management in conditions of limited resources..... 114

SAFETY OF HUMAN ACTIVITIES

Ye. V. Klimova, V. A. Petrova
The system of improving occupational safety by accounting, analyzing and predicting microtraumas..... 119

CONGRATULATIONS..... 124

SCIENTIFIC LIFE 124

INFORMATION FOR AUTHORS..... 126
