

Table of Contents

CONSTRUCTION AND ARCHITECTURE

O. B. Zavyalova, R. A. Zavyalov
Methods of strengthening
a single-storey industrial building
equipped with a bridge crane,
while protecting against progressive collapse 5

*Yu. Yu. Yuryev, N. V. Dudnikova, Ye. R. Chayka,
D. P. Yakovlev, A. V. Moskvichev*
Production of sorbents based on oil and aluminum waste..... 11

N. N. Trekin, E. N. Kodysh, I. A. Terekhov, S. D. Shmakov
Classification of structures of industrial enterprises
according to the possibility
of protection from progressive collapse 15

S. N. Savin, Ch. D. Fan
Control of the technical condition
of buildings and structures
by their dynamic characteristics 20

*Ye. V. Gurova, R. Kh. Kuramshin, A. A. Korotkova,
G. I. Levshin, A. S. Mashakaryan*
Features of accounting for operational loads
when ensuring mechanical safety
of coating structures of a construction facility 27

N. V. Kupchikova, M. A. Batalov
Digitalization in the implementation
of the investment and construction project
of the Ice Heart indoor ski complex with scaling
to the regions of the Russian Federation 32

A. D. Legkiy, N. M. Veselova, V. I. Karapuzov, T. P. Brenina
Non-stationary heating of metal parts
in mechanical engineering by radiant heat flow taking
into account changes in thermophysical characteris-tics 37

V. Ya. Svintsov, M. Sh. Arabov, S. V. Prokin
Dispersion of diesel fuel
in a high-voltage electrostatic field 41

Ye. V. Pakalova, G. B. Abuova, L. A. Sharagin
Reagent method of phosphate removal
as a way to improve quality wastewater treatment 46

S. V. Leontyev, A. A. Taleyko
Comparison of temperature fields
of reinforced cast-in-situ structures created
as a result of experimental and numerical modeling
of electric heating 50

S. Kh. Bayramukov, Z. N. Dolayeva
Modeling of construction production
taking into account resource constraints
and energy saving 54

L. N. Lisiyenkova, L. S. Nosova
Methodology for assessing the quality level
of materials for flooring 58

Ye. N. Karpushko, A. A. Kushnareva, A. A. Cheboltasova
Features of legal regulation in the implementation
of investment and construction projects
at the stage of landscaping of the adjacent territory 63

*R. Kh. Kuramshin, Ye. N. Karpushko, A. A. Korotkova,
G. I. Levshin, A. S. Mashakaryan*
The use of a computational model
as a justification for the composition and scope
of work in assessing the technical condition
of a construction object 67

*D. V. Berezhnoy, L. S. Sabitov, I. N. Garkin,
L. R. Sekayeva, V. V. Mikheyev*
Solution of the inverse Sturm-Liouville problem
in recovering the velocity characteristics
of a quasi-infinite string 71

D. V. Spitsov, I. K. Yazhlev
Methodology of bat application for restoration
of contaminated lands during the integrated development
of non-residential areas 76

I. I. Klimenko, Ya. A. Ovchinnikov
Color solutions in architecture: problems of modernity 82

O. V. Savenkova, S. B. Pomorov
Modern trends in the architecture of the altar barrier
of churches in Barnaul 86

H. Dakheel
Prospects for the development of the city waterfront
using the social survey method 92

COMPUTER SCIENCE, COMPUTER ENGINEERING AND MANAGEMENT

T. V. Vlasova, I. V. Vlasova
Methods for studying the educational function
in the city-forming environment
of organizational systems 101

Yu. N. Zgodina, A. A. Semenov
On the high-performance implementation
of the best parameter continuation method
for simulation of thin-walled shells 105

A. V. Makarov, V. F. Shurshev
Methods for assessing the resources of gas fields 110

N. I. Masyagina, O. A. Zorina
The necessity and possibility of using BIM-technology
in assessing the level of technosphere security 115

K. A. Proshunina, T. V. Khomenko
Analysis of the influence of factors on the potential
of environmental engagement 122

O. G. Mukhamedzhanova
Risk assessment in the testing laboratory 128

L. S. Kuzyakina, P. N. Sadchikov
Designing an information system
for urban improvement
in the context of a pyramid of needs 132

L.P. Skripko, A. A. Skripko
Automated control systems in greenhouses
in the Astrakhan region 137

S. I. Noskov I. V. Ovsyannikov
Aggregate criterion for assessing the condition
of the housing stock
of the regions of the Russian Federation 142

D. B. Pugacheva, A. V. Yudin
Application of the Kohonen map for the analysis
of statistical data of regions
to support decision-making on their optimization 146
