

Table of Contents

CONSTRUCTION AND ARCHITECTURE

<i>O. V. Ladygina, I. A. Bessonov</i> Development of bicycle infrastructure in Yaroslavl.....	5
<i>A. D. Potashov, L. A. Pleshakova</i> Intelligent solutions for predicting failures in medical gas supply systems	10
<i>A. A. Voytyuk, D. O. Ignatkina, V. S. Telyatnikova, M. A. Perepelitsyna</i> Technical aspects of adaptation of the project documentation during the examination, taking into account the introduced regulatory changes	16
<i>V. S. Fedorov, V. Ye. Levitskiy, D. R. Asmalovskiy</i> Planning of an experiment to assess the fire resistance of compressed elements made of lightweight high-strength concrete	23
<i>Yu. V. Lazutkin</i> Influence of combination of dynamic effects from ground and underground transport in conditions of dense development of a megapolis	28
<i>P. A. Kaydas, S. R. Meliksetyan, O. O. Korenkova</i> Strength assessment of monolithic and prefabricated monolithic reinforced concrete beams using diagrammatic calculation methods.....	36
<i>Serat Jawed</i> Influence of construction production management methods on the efficiency of organizational structures in designing and construction of facilities.....	41
<i>Ye. I. Krupnov, I. A. Zaytseva, S. A. Loginova, A. S. Bykova</i> Criteria and methods for selecting qualified employees of a construction company in a dynamic market	46
<i>T. V. Zolina, Yu. S. Akhmambetova</i> Numerical analysis of the joint work of a building with a pile foundation and a soil base.....	54
<i>N. V. Kupchikova, P. D. Nikulina</i> Technical and economic efficiency of building foundations from piles with single and multi-seat extensions for construction in the arctic zone	61

<i>Yu. V. Lazutkin, A. A. Yeremeyev</i> The results of numerical modeling and estimation of vibration levels in the soil from three sources	66
--	----

<i>N. R. Ruppa</i> Changing low-potential heat in convectors by using a composite material with molybdenum disulfide addition.....	73
---	----

<i>N. V. Kupchikova, V. S. Fedorov</i> Features of the construction of foundations from piles with extensions on frozen soils	79
---	----

COMPUTER SCIENCE, COMPUTER ENGINEERING AND MANAGEMENT

<i>K. A. Proshunina, T. V. Khomenko</i> Prospective development options of the urban environment system.....	87
--	----

<i>A. V. Ignatyev, D. A. Saushkin</i> Using information models to optimize network graphs	93
---	----

<i>V. A. Kharitonov, Ya. A. Ovchinnikov, G. F. Ovchinnikova</i> The use of integrated assessment mechanisms in the tasks of increasing the effectiveness of scientific research in the field of construction	98
--	----

<i>S. I. Noskov, T. K. Kirillova, S. V. Belyaev, S. P. Seredkin, V. D. Toropov</i> Refinement of piecewise linear regression risk function for cement price dynamics	106
--	-----

<i>B. Kh. Sanzhapov</i> Unary expert evaluations in hierarchical systems	111
--	-----

<i>M. S. Bodnya, A. G. Ratyeva, G. B. Abuova</i> The introduction of modern technologies as a tool to reduce occupational injuries in the construction industry.....	115
---	-----

<i>R. I. Aminov, L. Kh. Zaynutdinova</i> Electronic information and management systems in the educational process of Russian universities.....	120
--	-----

<i>B. Kh. Sanzhapov</i> Application of an artificial neural network for express assessment of the ecological state of an urban roadside area.....	127
---	-----
